

e-ToGo is a one-step synchronization program that works with your Omni-Mail's Contact, Address, Calendar and To-Do items and your Pocket PC

Features & Benefits

Real Time Synchronization

e-ToGo synchronizes your e-Contacts in real time so that, as you add, remove, or edit contacts in your e-Contacts address books, they will be automatically updated on your PocketPC, and vice versa.

Choose Which Files To Synchronize

e-To-Go allows you to easily create a list of files that you would like to synchronize between your PC and PDA so that you can work on your documents at your office, at home, or on the go without having to constantly double-check and update them to make sure that each version of the document matches the revisions you've made.

Convenience

Work on a single document using whichever device is most convenient to you at any given time.

Flexibility

e-To-go allows you to transfer any kind of file to your PDA. Files can be viewed, accessed, or edited from anywhere.

Auto Detection

Automatically detects PDA devices that are connected to your computer so that there's no messy setup or configuration required.

Features & Benefits

Integration

e-ToGo is a tool that works through Omni-Mail to integrate your desktop and/or laptop with your PocketPC.

Portable Address Book

Works as a portable address book with a very simple, attractive interface that makes it easy to store and access your addresses and other pieces of personal information.
