

Showtime

ONE

Showtime is a full featured, professional quality presentation program that allows users to create stunning multimedia presentations complete with audio, video, animations, 2D/3D clip art, special effects, and a set of impressive drawing tools. Showtime is also a great program for beginners with a full set of templates to get started and a large assortment of pre-designed slide layouts that combine all of ShowTime's multimedia capabilities.

Features & Benefits

Animation Effects - One of Showtime's most impressive features is our animation option for both text and graphics. Showtime also includes an impressive library of animation effects and you can add in one of the more than 50 transitions available.

Multimedia Options - Showtime makes it simple for users to combine a wide variety of built in features to create a truly multimedia presentation. Combine audio, video, graphics and imported files from virtually any standard windows application. Showtime supports a wide range of multimedia sources including: AIF Audio, AU Audio, AVI, CD Audio, MIDI Audio, MPEG Audio, MPEG Video, QuickTime Video, Vivo Video, and WAVE Audio.

Viewing Options - Complete ranges of views are supported: Drawing, Slides, Notes, Outline, and Handouts. Showtime also has the option of using its multi-pane view so you can have all of ShowTime's tools visible while you work.

Publish your Presentations - Showtime gives you the option to publish your slides on-screen, as handouts, as HTML documents, as PDF documents or even as Macromedia Flash animations..

Microsoft® Office Compatible - ShowTime instantly converts Microsoft® PowerPoint presentations into Showtime and then back into PowerPoint just as easily.

Publishing in Flash (.SWF) - Showtime lets you to export your presentations as Macromedia Flash animations.

Portable Document Format (.pdf) - Showtime, like all other "One" applications gives you the ability to produce your presentation as a set of PDF slides. Showtime slides enable Adobe options such as bookmarks, hyperlinks, thumbnail images and form formatting.

Features & Benefits

Design Templates - Showtime gives users a large set of slide templates to choose from and also allows you to create and save your own templates.

Professional Layout & Design - Showtime also contains pre-defined slide layouts that combine all of Showtime's amazing multimedia styles.

Graphic Presentation Tools - Showtime boasts a large graphic library that includes clip art, images, animations, sounds, and symbols.

Showtime also makes it easy to add vector graphics, custom shapes, 3D modeling and gives you a full set of fill and shading tools to work with.

Showtime's built in fonts give you a wide array of choices and it's built-in "Font-Manipulator" lets you create 2D and 3D fonts.
